

Snake Repellent Granular

Features and Benefits

- Timed-release, long-lasting
- Eco-safe, EPA exempt
- Environmentally safe
- Guaranteed effectiveness
- Naphthalene free
- Easy-to-use
- Will not harm vegetation

Spread Rate

1 Pound per 500 Square Feet

Frequency Rate

Reapply every 4 weeks as needed

Ingredients

Active: Mint Oil 5.92%, Sodium Lauryl Sulfate 2.96%, Thyme Oil White 1.93%, Putrescent Egg Solids 1.48%, Potassium Sorbate 0.19%

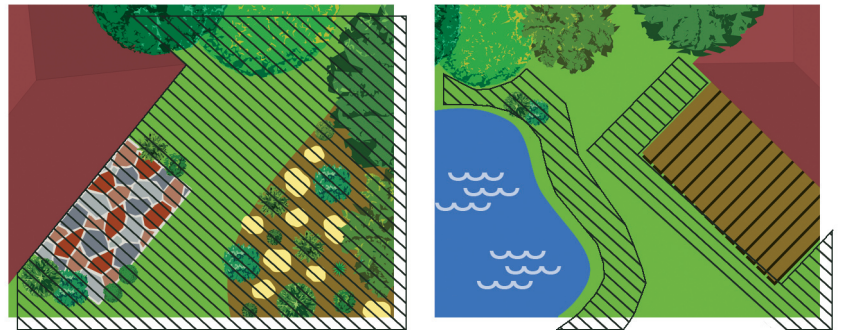

Other: 87.52% (Water, Corn Starch, Gelatin, Wheat Flour, Iron Oxide, Citric Acid, Sodium Benzoate, Guar Gum)

Keep snakes away from landscaped areas, foundations, crawlspaces, decorative fish ponds, patios and other surfaces – safely and effectively. The Liquid Fence® Company has created an eco-safe naphthalene-free, timed-release granular repellent that is guaranteed to drastically reduce snake infestation problems.

How Liquid Fence Snake Repellent works

Although perfectly safe for humans and animals, the patented combination of ingredients in **Liquid Fence Snake Repellent Granular** irritate and confuse a snake's chemosensory systems (sense of taste, smell). When these senses are affected, the snake is unable to gather information about its surrounding environment, forcing it relocate to untreated habitat.

Revolutionary, eco-safe formula encapsulates and preserves the effectiveness of the natural essential oil ingredients. As it biodegrades, it slowly releases the oils, creating timed-release, long lasting, guaranteed effective repellency.

Liquid Fence Snake Repellent Granular can be applied in two different coverage applications. Selective coverage (left), for targeting areas such as patios, lawns and rock gardens; and as a perimeter barrier (right).

No naphthalene means no worries

Many snake repellents contain naphthalene (the major component in mothballs). Scientific studies have shown that this chemical presents health hazards to both humans and animals. **The Liquid Fence Company represents that this product meets the Minimum Risk requirements for an insecticide and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).**

Liquid Fence Snake Repellent has been independent lab tested and proven effective. Please note that repellency is unique to the individual snake, not just the species or genus. Therefore, results may vary.

TECHNICAL DATA SHEET Liquid Fence® Snake Repellent

Physical and Chemical Characteristics

Form: Course Granular
Appearance: Solid - Texture, Semi-Pliable
Color: Reddish Brown
Odor: Mild to Strong Mint

Health Hazards

Potential short term health effects: Eye, Skin contact, Inhalation, Ingestion.

Eyes: May cause irritation.

Skin: May cause irritation.

Inhalation: May cause respiratory tract irritation.

Ingestion: May cause stomach distress, nausea or vomiting.

Chronic effects: Prolonged or repeated exposure can cause drying, defatting and dermatitis.

Signs and symptoms: Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.

Control and Protective Measures

Personal protective equipment: Wear safety glasses with side shields.

Hand protection: Rubber gloves. Confirm with a reputable supplier first.

Skin and body protection: As required by employer code.

Respiratory protection: Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

Product Size Availability

5 Pound Shaker Bottle,
Call about larger sizes

For Overall Coverage

Apply **Liquid Fence Snake Repellent Granular** evenly on and around areas where snakes are present such as mulch areas, patios, sidewalks, rocks, flagstones and around foundations.

For a Perimeter Barrier

Create a 2 to 3 foot wide band around property, buildings or landscaped garden areas.

Spreader Application

Due to product consistency and varying size of the granules, adjust spreader accordingly to achieve even coverage. Begin at the lowest setting that allows the product to flow evenly through the spreader. Apply 1 pound of product per 500 square feet.

Liquid Fence Snake Repellent Granular shows repellency for up to 4 weeks. Reapply as needed. Additional and/or more liberal applications may be required depending on the degree of snake infestation.

This product is intended for outdoor use.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container, in a cool, dry area inaccessible to children and pets. Protect from heat and freezing. Store between 40° - 90°F. Keep containers closed tightly with inner seal in place to prevent drying out. If spillage occurs, sweep up.

CONTAINER DISPOSAL: Do not reuse empty container. Dispose of empty container as required by municipal or local laws.
