Other Ingredients

Mineral Oil, Carbon Dioxide, Wintergreen Oil, Vitamin E

Product Size / Type

13.5 Ounce Aerosol Spray

The Liquid Fence Company is proud to add eco-safe Wasp + Hornet Killer to its line of environmentally responsible products. A botanical insecticide designed to be as effective as conventional wasp and hornet control products, it provides immediate knockdown and kill of wasps and hornets, and when sprayed on the nest, will kill the entire nest population.

In PPM Testing: Per ASTM Analysis D149 the Dielectric Strength tested out at 27,500 volts.

Directions For Use

Shake well before using. Read entire label and use outdoors only. Not designed for indoor use. Wasp, Hornet & Yellow Jacket Treatment: Apply at sunset or sunrise when insects are least active and in the nest. Stand at a safe distance from the nest. Apply on a calm wind day; otherwise be sure to have wind at your back to avoid spray drift. Avoid contact with surrounding foliage. If foliage contacted hose off with water. Hold can upright at all times and point spray opening toward nest. Spray the nest until soaked and contact as many insects as possible. Wait at least 24 hours before removing nest.

The Liquid Fence Company represents that this product meets the Minimum Risk requirements for an insecticide and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
