Other Ingredients

94.4%: (Water, Gelatin, Corn Starch, Wheat Flour, Citric Acid, Sodium Benzoate, Guar Gum, Wintergreen Oil, Iron Oxide)

Product Size / Type

5 Pound Shaker Bottle
40 Pound Granular Box

For use on turf and ornamental landscaping. An eco-safe outdoor insect control, **Yard Net Granular** creates a repelling barrier in treated areas that dramatically reduces the presence of biting insects such as mosquitoes, fleas, ticks and black flies (gnats).

This environmentally safe insect control is safe for use around children, animals and vegetation. Its time-release biodegradable formula makes this repellent highly-effective and long-lasting. **The time-release granular formula works continuously for a full week.**

Directions For Use

To keep contents fresh, be sure to close bag tightly with closure and close box after use.

For Overall Coverage: Apply Yard Net Granular evenly on and around areas where insects need to be repelled such as turf, landscaped garden areas and shrubs. Repellency lasts for a full week. Re-apply as needed.

Spreader Application: Due to product consistency and varying size of the granules, adjust spreader accordingly to achieve even coverage. Begin at the lowest setting that allows the product to flow evenly through the spreader. Apply 1 pound of product per 500 square feet.

The Liquid Fence Company represents that this product meets the Minimum Risk requirements for an insecticide and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
